

The Music of Bob Dee's COSMOSIS

Composer and guitarist, Bob Dee, has been a part of the alternative music scene for over twenty five years. Dee's work reflects a cutting edge musical expression that represents as much an art form as it does a philosophy of music itself. *Cosmosis*, Dee's latest project, represents an avant garde fusion of rock, jazz, blues/jam, and gospel-infused themes. Dee's music has been likened to Tony Williams Lifetime and Jimi Hendrix's "Third Stone from the Sun". *Cosmosis* is an esoteric musical convergence—Ornette Coleman with a little Hendrix thrown in.
